Introduction

- Because we believe every person, regardless of formal education level should be able to learn about and contribute to the solutions that will make a better world, this guide is your source for education about all of the intermediate and advanced geology you will need to fully understand the content on Lotus Live.
- As Lotus Live's knowledge base increases, and as new resources are created, this guide will be updated. The most recent version of this guide can be found [here](#).
- Eventually, Lotus Live will be collecting educational materials specifically tailored to what the average person needs to know to fully understand the problems and solutions in the future. For now, check out the following excellent ecology guides from Visionlearning.

Earth Structure

Inside the Earth

- For now check out the Visionlearning module on [Earth Structure](#).

Plate Tectonics
