

The *Lotus Live* Guide to **Physics**

(Updated January 2, 2008)

Table of Contents

Introduction	2
Mechanics	2
<i>Gravity</i>	2
Electricity and Magnetism	2
<i>Wave Basics</i>	2
<i>Light</i>	2

Introduction

- Because we believe every person, regardless of formal education level should be able to learn about and contribute to the solutions that will make a better world, this guide is your source for education about all of the beginning, intermediate, and advanced astronomy you will need to fully understand the content on Lotus Live.
- As Lotus Live's knowledge base increases, and as new resources are created, this guide will be updated. The most recent version of this guide can be found [here](#).
- Eventually, Lotus Live will be collecting educational materials specifically tailored to what the average person needs to know to fully understand the problems and solutions in the future. For now, check out the following excellent physics guides from Visionlearning.

Mechanics

Gravity

- For now check out the Visionlearning module on [Gravity](#).

Electricity and Magnetism

Wave Basics

- For now check out the Visionlearning module on [Waves](#).

Light

- For now check out the Visionlearning modules on [Light I](#), and [Light II](#).

About this Guide
